GETTING STARTED WITH ROBOTICS IN REMANUFACTURING
PART 2:
A webinar about the basic knowledge of Image Processing

30. September 2024 - 13:30 h to 14:30 h CEST **Online**

AGENDA:

Vision in Motion - Unlocking Robotics with Image Processing

- Introduction to image processing: From basic concepts to modern techniques
- How image processing opens up new possibilities in robotics: From object recognition to quality control
- Applications of image processing in remanufacturing and circular economy: Efficient recognition and sorting of components
- Discussion on current trends, challenges, and future developments in image processing for robotics

---

Registration and contact:
Please register by 23.September 2024 on Eventbrite:

If you have any questions, please do not hesitate to contact us.

We look forward to your participation!

Moderators:
